EXAMINER'S AMENDMENT

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 06/29/06 has been entered.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
3. Authorization for this examiner's amendment was given in a telephone interview with Ms. Poy on 10/16/06.
4. The application has been amended as follows:
 - Claim 10, line 9, "said each of" have been deleted.
 - Claim 20, line 4, "each planetary gear train of" have been deleted.
 - Claim 20, line 5, "coactively" has been changed to --collectively--.
 - Claim 20, line 8, "said each of" have been deleted.
 - Claim 20, line 13, "by" has been changed to --with--.
5. The following is an examiner's statement of reasons for allowance: Claims 1, 10 and 20 have been amended to overcome the prior art. Examiner agrees with Applicant's arguments filed

Art Unit: 3681

6/29/06 regarding claims 1, 10 and 20. The prior art of record does not disclose or render obvious a motivation to provide for a final drive assembly for transmitting torque between an input and an output including at least three planetary gear trains that collectively and drivingly engage the output such that the torque generated by the input is distributed to the output by the planetary gear trains as defined by the limitations of claims 1, 10 and 20. Claim 1 further requires the ring gears of the second and third planetary gear trains and the carrier of the first planetary gear train being connected to the output. Claim 10 further requires the input drivingly engaging the sun gear of the first planetary gear train, and the ring gear of the first planetary gear train being connected with the sun gear of the second planetary gear train. Claim 20 further requires the input drivingly engaging the sun gear of the first planetary gear train, and the carrier of the first planetary gear train being connected to the output.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ha D. Ho whose telephone number is 571-272-7091. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Marmor can be reached on 571-272-7095.
